

Out in the back

Retired. In place of the old activities, I am studying drawing and painting at the Corcoran in Washington, reading, attending concerts and enjoying the grandchildren of his wife, Terry.

And lots of travel, including recently, a month camping in the Australian outback.  
2008

Terry and I are planning a ten-week driving trip around Europe this fall. We did a similar trip in the US a year before Covid which we enjoyed enormously, so thought we'd do something similar in Europe before our kids confiscate our driver's licenses. We're looking forward to visiting friends and places we haven't seen for a while, and some places we've never had the chance to visit. 2022
